

Understand Road Safety Basics

Road safety is the cornerstone of responsible driving. Understanding the basics not only ensures your well-being also the safety of others on the road.

Over the last decade, more than 370,000 people in the U.S. died in transportation incidents.

Roadway fatalities have been decreasing for 30 years, but this progress has recently stalled.

Don't Drink and Drive after consuming alcohol.

Keep Phones Away

while driving, use handsfree devices instead.

Maintain a Safe Distance

changes.

to react safely to sudden traffic

Drive in Bad Weather

Here are a few techniques to face challenges when driving in bad weather.

- 1. Be aware of weather conditions like rain, snow, or fog.
- 2. **Prepare your vehicle:** Check tires, wipers, and lights.
- 3. Adjust driving: Slow down, increase distance, be smooth.
- 4. Respond to skids: Avoid hard braking and ease off the gas.
- 5. Have an emergency kit with a flashlight, blankets, and charger.

Navigate City vs. Highway

City Roads

- Watch for Pedestrians and Cyclists:
- Understand traffic signal timing.
- ✓ Respect public transport lanes.
- ✓ Adhere to parking regulations.

Highways

- Adjust speed if needed.
 - Use right lanes for slower speeds and left for passing.
- ✓ Signal early for merging/exiting.
 - Watch for large vehicles' blind spots.

Defensive Driving

Safe Passing: Check for safety, signal, and check blind spots before passing.

Safe Distance: Keep a variable three-second gap from other vehicles.

Weather Adaptation: Adjust driving to current weather conditions.

Stay Focused: Continuously monitor the road and surroundings.

Route Planning: Prepare your journey in advance.

Proper Signaling: Use signals in a timely and watch for others' signals.

Speed Control: Follow speed limits and adjust to road conditions.

Yielding: Yield for safety and courtesy as needed.

Manage Breakdowns and Accidents

Handling Vehicle Breakdowns breakdown can be daunting, but having a clear action plan can help you navigate this unexpected situation.

Pull Over Safely

Use Hazard Lights

Call for Assistance

Overheated Engine

Dead Battery

Flat Tire

Managing Accidents

In case of an accident:

- 1. Check injuries; call for help if needed.
- 2. Move car to a safe spot.
- 3. Turn off the engine.
- Exchange contact and insurance info.
- 5. Document the scene.
- 6. Report to police if necessary.

Avoid Distracted Driving

Understanding the types of distractions can help you avoid them:

- **Visual Distractions:** Looking away from the road risks safety.
- **Manual Distractions:** Removing hands from the wheel reduces control.
- **Cognitive** Distractions: Losing focus impairs reaction times.

Minimizing Driving Distractions

These practical steps can aid in keeping your attention on driving.

- Use hands-free for calls or pull over to talk.
- 3. **Limit Eating/Drinking:** Eat before driving or during breaks.
- Passenger Rules: Set behavior expectations for passengers.
 - **Take Breaks:** Pull over for breaks if distracted.
- **6. Avoid Phone Use:** Silence and store phone out of reach.
